

FOR IMMEDIATE RELEASE

ARTESPRIX™ PERMANENT THERMAL TRANSFER MARKERS APPROVED FOR CHILD USE

ASTM D-4236 Certification for Children ages 9+

August 28, 2018 (Sarasota, FL) – Espritx Impressions is pleased to announce that Artespritx™ Permanent Thermal Transfer Markers have been certified to comply with the following regulation:

ART MATERIALS CERTIFICATION to ASTM D-4236 & CFR1500.14(b)(8) (LHAMA) FOR CHRONIC HAZARDS AND COMPLIANCE WITH FEDERAL HAZARDOUS SUBSTANCE ACT (FHSA) FOR ACUTE HAZARDS

“We couldn’t be more delighted with the ASTM D-4236 certification,” says Tonya Tremitiere, Vice President of Espritx Impressions, “From the beginning we envisioned these markers in the hands of children, but given the necessary application of heat for the sublimation process, we had to make sure kids will be safe with proper adult supervision.”

The review of the markers was performed in a manner consistent with the Consumer Product Safety Commission (CPSC) guidelines found in 16CFR1500.135. The CPSC adheres to the product safety requirement intended to be used for children’s product, and the procedures and regulations followed have been filed with the CPSC.

Stringent testing was performed to provide a high degree of assurance that our product, when used as intended, is safe for the end consumer. The product has been classified as follows:

- Not Toxic
- Not a Skin Irritant
- Not an Eye Irritant
- Not Corrosive
- Not a Strong Sensitizer

Artespritx™ Permanent Thermal Transfer Markers have been approved for use by children **ages 9+** and adult supervision is required when using a heat source to transfer any drawn images. When using the product, the following warnings should be adhered to:

CAUTION! REQUIRES HEAT FOR TRANSFER

▲WARNING: Choking Hazard – Small Parts. Not intended for children under 3 years.
Ages 9+ with adult supervision

ABOUT ESPRIX IMPRESSIONS

Formed in 2018, Espritx Impressions is a new division of parent company Espritx Technologies – a specialty chemical company that develops materials for a wide variety of industries including automotive, electronics, pharmaceutical and textiles. The Espritx Impressions printing technologies division was created after the successful development of the Artespritx line of permanent transfer markers. The new division continues the successful legacy of its parent firm of technical innovation, advanced chemistries and environmental awareness and stewardship.
